

SEXUAL PLEASURE!

the clitoris is the only human organ whose sole function seems to be . . .

... that generates feelings of sexual arousal & orgasm ooh la la i)

AND IT'S A GENERATOR . . .

kinda like a butterfly

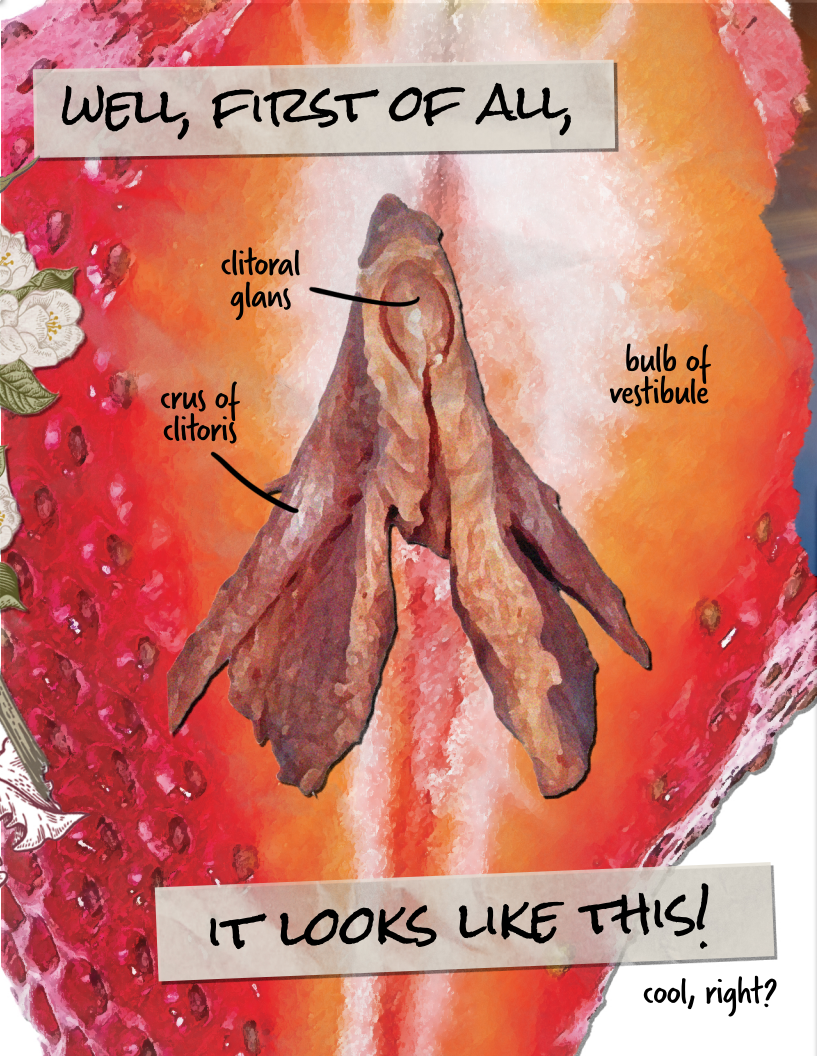

IT'S A TRANSFORMER . . .

IT'S A RECEPTOR . . .

stimulate me, baby!

... that recieves external or transvaginal stimulation

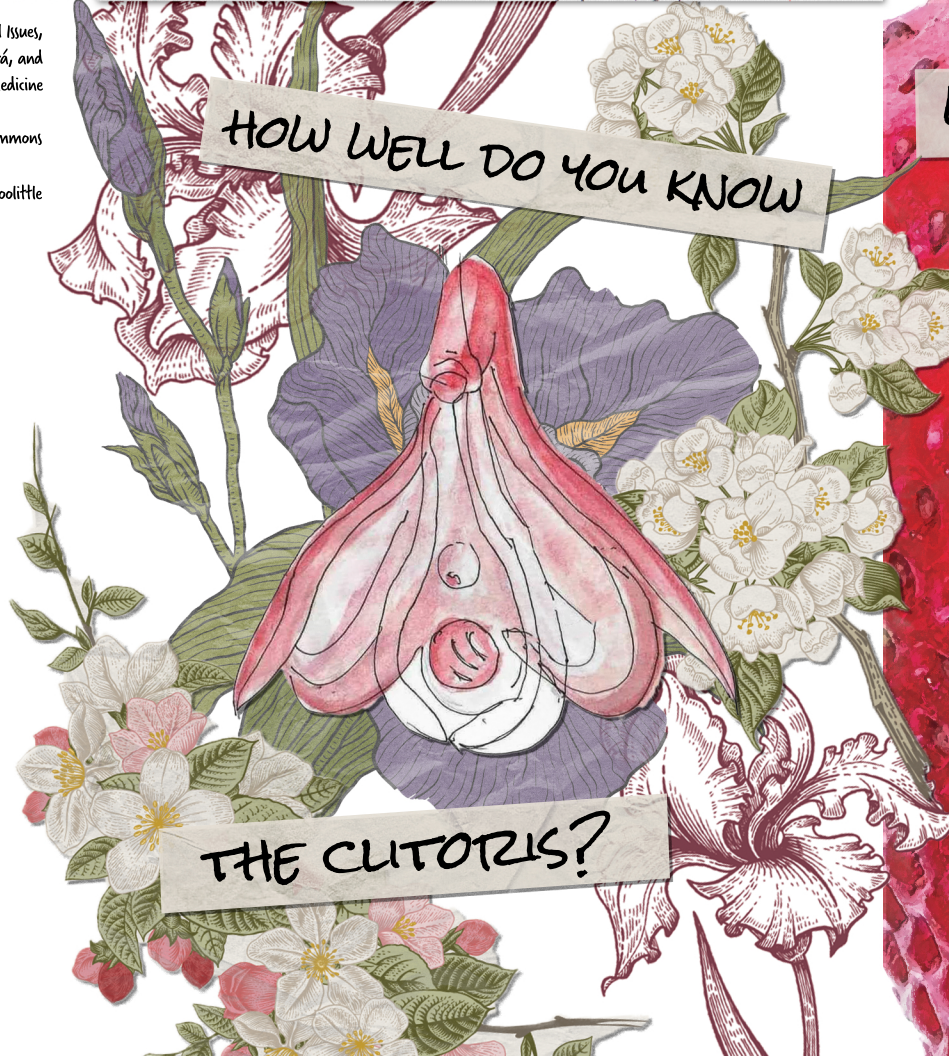

WELL, FIRST OF ALL,

clitoral glans
bulb of vestibule
crus of clitoris

IT LOOKS LIKE THIS!

cool, right?

HOW WELL DO YOU KNOW

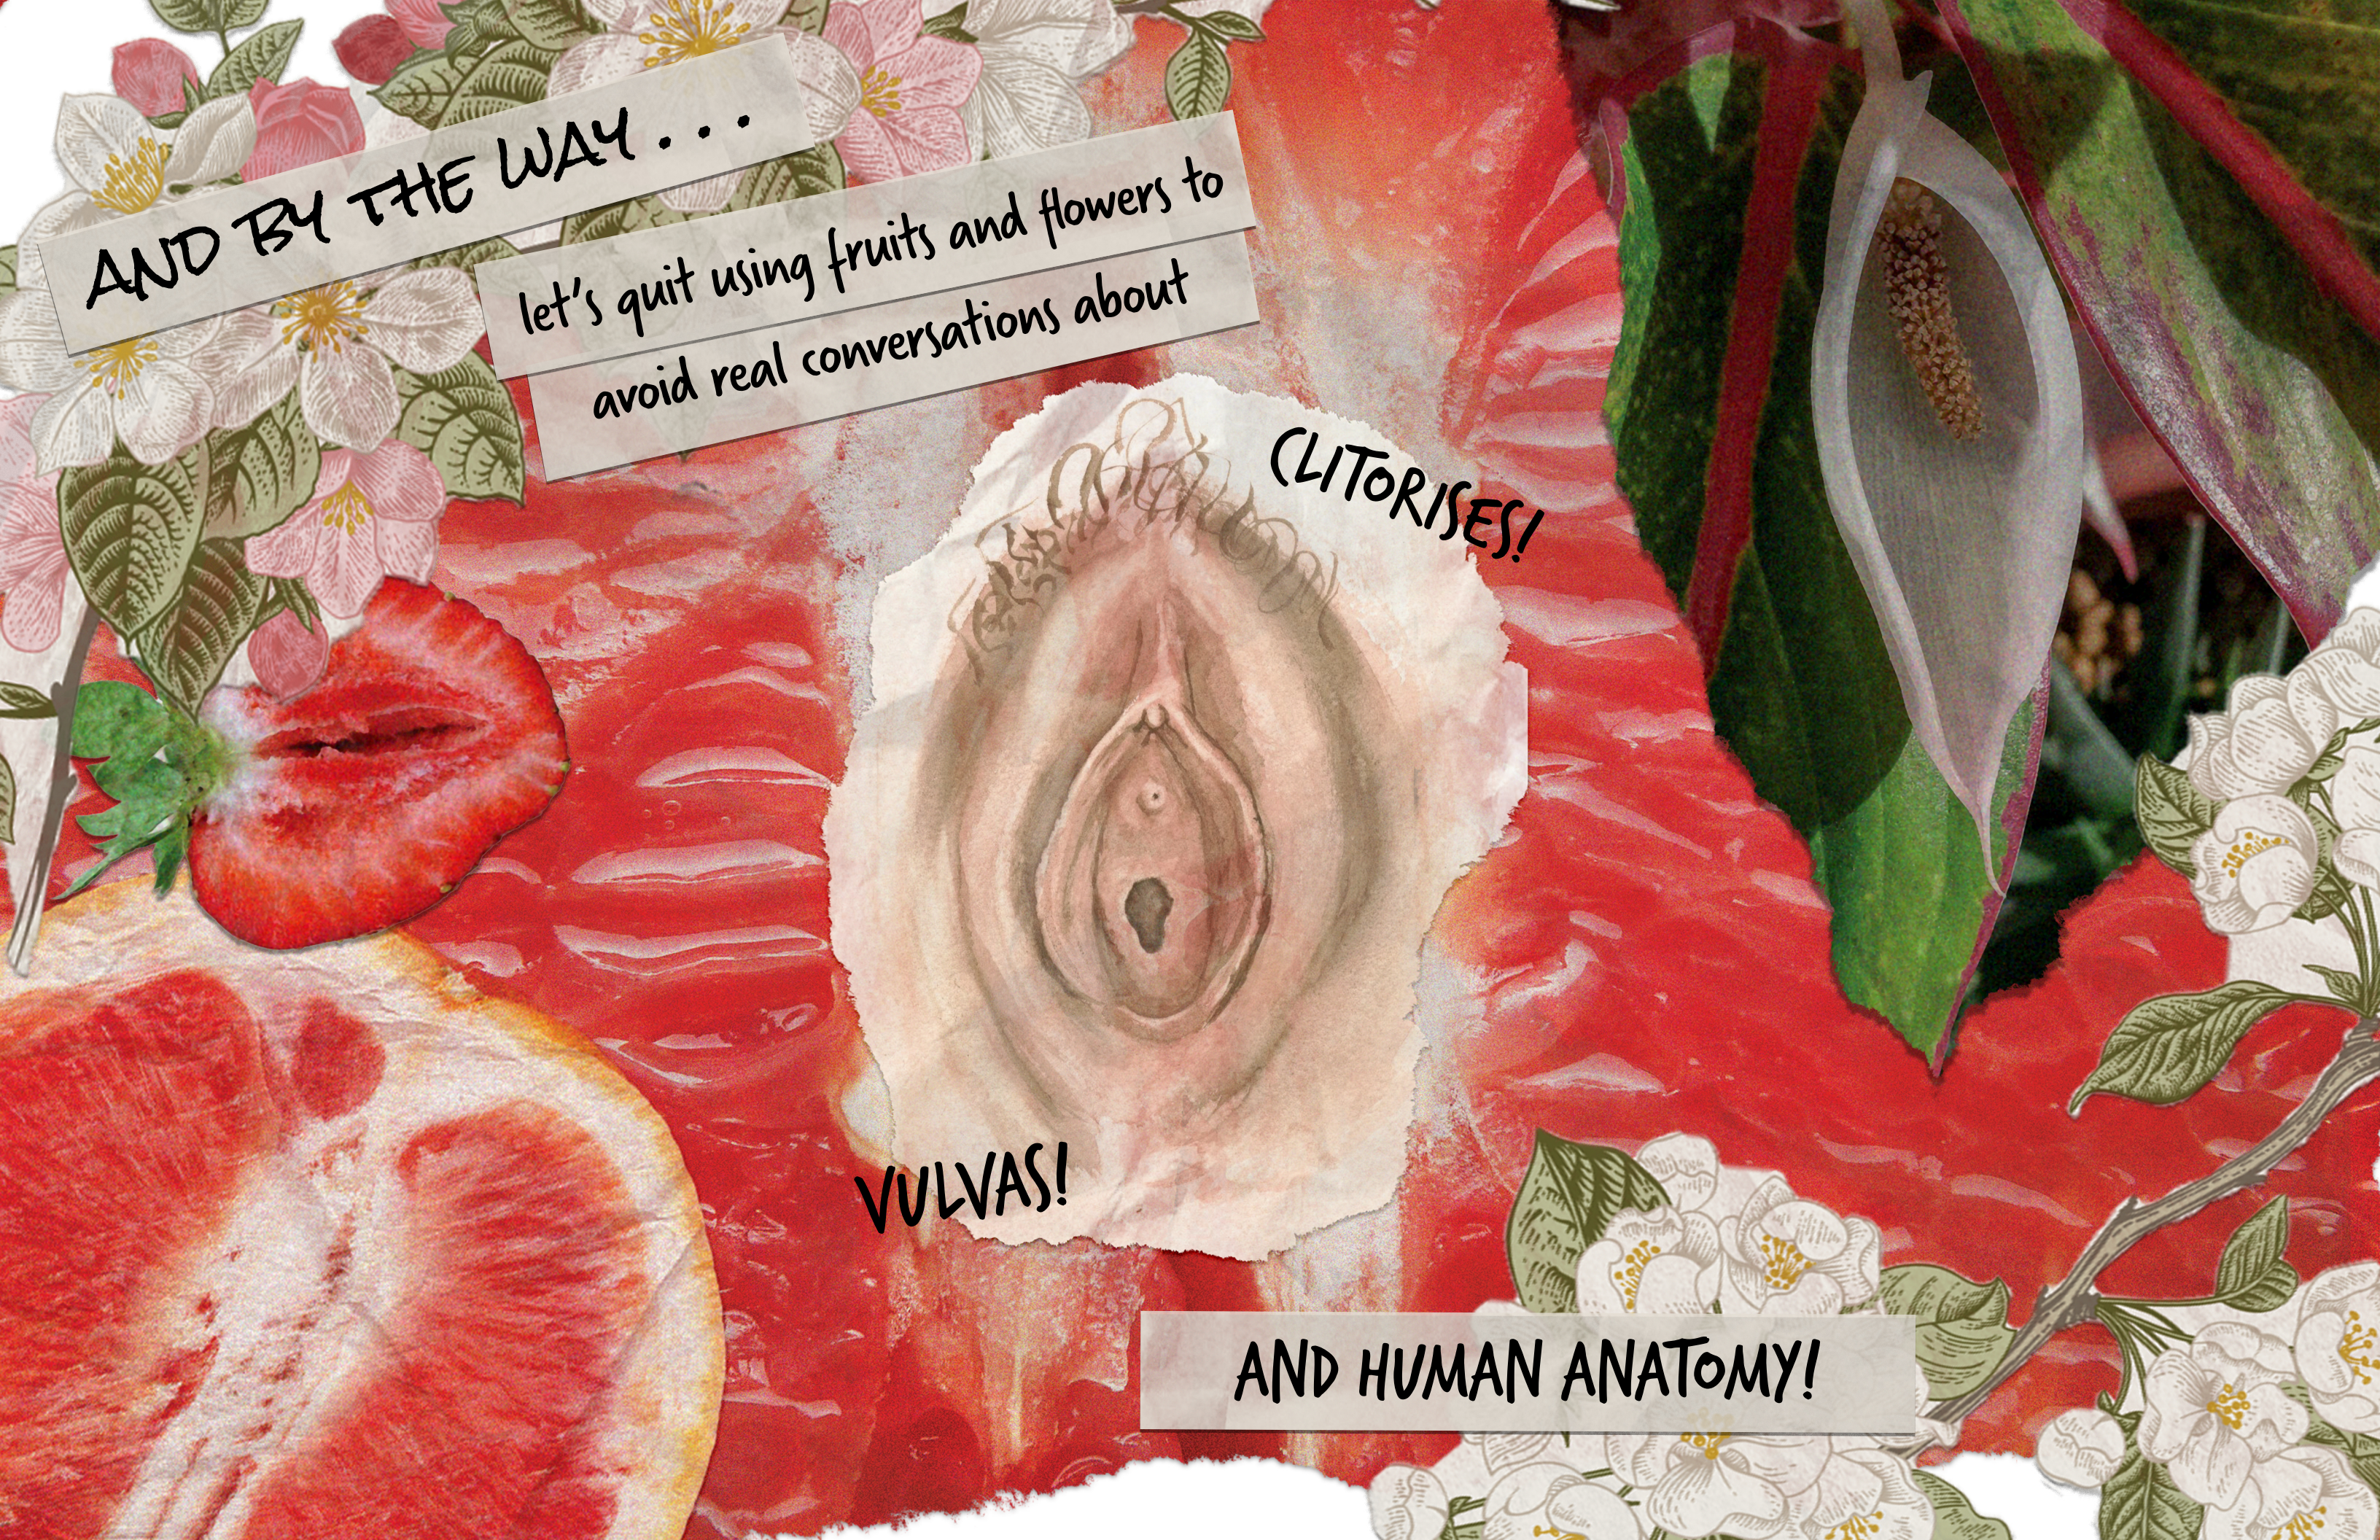

THE CLITORIS?

Information from Mark J. Blechner's The Clitoris: Anatomical and Psychological Issues, Studies in Gender and Sexuality, and Zlatko Pastor, Roman Chmel, Marta Nováková, and Lucie Krejčová's The Role of the Clitoris in Female Sexuality, The Journal of Sexual Medicine

AND BY THE WAY . . .

let's quit using fruits and flowers to
avoid real conversations about

CLITORISES!

VULVAS!

AND HUMAN ANATOMY!
