

# How to print and fold this zine

THIS ZINE IS ALREADY FORMATTED AS A BOOKLET.  
DO NOT USE BOOKLET PRINTING TO PRINT THIS ZINE!

1. Print the zine file double-sided. Make sure "flip on short edge" is selected, otherwise the reverse pages will be upside-down.

2. Fold each page in half and stack them one inside of the other, starting with the cover and going in the order the pages printed.

3. Staple the zine on the spine (I usually do 3), and voila, you're done!
